

HEMANT SINGLA

New Brunswick, NJ | +1 (732) 522-4424 | hemantsingla786@gmail.com | linkedin.com/in/hemant-singla-3b4a85b9

PROFESSIONAL SUMMARY

Supply chain analytics M.S. student at Rutgers with an MBA from XLRI Jamshedpur and 4+ years at Samsung and DXC Technology. At Samsung, kept product readiness on track for 10+ global TV launches across 10+ hardware variants, working with product, QA and design teams against fixed dates. Lean Six Sigma Green Belt, with project work in forecasting, inventory, network design and S&OP.

PROFESSIONAL EXPERIENCE

Software Developer, USB Team | Samsung R&D Institute India, Delhi Nov 2022 – Oct 2024

- Owned USB feature readiness for 10+ global Samsung TV launches (Crystal UHD, Neo QLED; \$100M+ revenue), all on time.
- Managed software for 10+ hardware board variants in parallel and standardized shared code into reusable modules, cutting regressions by 40%, shortening each release by about a week and saving 200+ engineer-hours.
- Coordinated release milestones with product management, QA and design, reducing post-launch defects and escalations by 30%.
- Automated pre-release log analysis to catch issues upstream: 10+ critical bugs flagged before launch, triage time cut 50%.
- Samsung R&D Quarterly Award (among 500+ engineers); 1st place, Samsung Ideathon 2024, for an AI-based Smart Hub concept.

Associate Professional Software Engineer, Linux Administration | DXC Technology, India Jun 2020 – Nov 2022

- Ran server lifecycle for a Zurich-based bank's Linux fleet: 50+ servers deployed, legacy hardware retired, incidents down 25%.
- Resolved 100+ high-priority incidents and changes in ServiceNow, keeping business-critical systems within service levels.
- Led 10+ initiatives across 6 departments and 50+ people; trained 50+ new engineers in 20+ knowledge-transfer sessions.
- FastTrack promotion; Star Employee 2021; ranked in the top 10% of 100+ engineers; 4 Spotlight and 11 Bravo awards.

INTERNSHIP

Planning & Analytics Intern | Tata Steel Foundation, Jamshedpur Apr 2026 – Jun 2026

- Ran a spend analysis of Tata Steel's CSR budget versus peer steel producers and recommended where to redirect funds.
- Reviewed NITI Aayog and other government schemes to propose how the Foundation can back women-run village businesses.

EDUCATION

M.S., Supply Chain Analytics | Rutgers Business School, Rutgers University Expected 2027

Coursework: Supply Chain Management Strategies, Supply Chain Analytics, Operations Analysis

MBA, Business Management | XLRI Jamshedpur, India 2025 – 2026

B.Tech., Electrical Engineering | National Institute of Technology (NIT) Hamirpur, India 2016 – 2020

SKILLS

- Supply Chain:** Demand forecasting, S&OP, inventory optimization, safety stock, network design, spend analysis, launch readiness
- Process & Quality:** Lean Six Sigma Green Belt, DMAIC, root cause analysis, KPI tracking, process standardization
- Tools:** Excel (Solver, pivot tables), Python, SQL, Tableau, Power BI, Jira, ServiceNow

ACADEMIC PROJECT

Supply Chain Analytics Project | Tata Steel

- Forecast demand in Python from multi-year operating data in Tata Steel's annual and sustainability reports, then set safety stock and reorder points in Excel and modeled a redesigned distribution network with Solver to weigh cost against service level.
- Combined forecasts, inventory and capacity into a monthly S&OP view to balance supply against demand.
- Built Tableau dashboards tracking production, inventory and sustainability KPIs.

CERTIFICATIONS

Red Hat RHCSA · Microsoft Azure AZ-900 · Lean Six Sigma Green Belt (Georgia Tech) · ML & Data Science · McKinsey Forward

LEADERSHIP

- Secretary, Hill'ffair 2019, NIT Hamirpur: led 30+ coordinators and a ₹20 lakh budget for 5,000+ attendees; turnout up 40%.
